

IBED HIGH SCHOOL DEPARTMENT

TOTAL EDUCATION PROGRAM

The High School Department firmly believes that education involves total human integration and formation which constitutes a life long task. A person attains Christian maturity by actualizing his/her unique potentials and towards personal wholeness and holiness.

This maturing process is grounded on the San Beda College Alabang [Mission](#) Statement, its [Philosophy](#) of Christian Education as well as in its Developmental aims and High School Department Goals which compose the fundamental rationale for a relevant and meaningful existence.

The task of ensuring that the growth process is maintained and achieved is likewise facilitated by the concerted and cooperative efforts of all the administrators, the faculty, the school personnel and the students' parents/guardians.
