

## **IBED HIGH SCHOOL DEPARTMENT**

### **HISFACO**

#### **About HISFACO**

HISFACO stands for High School Family Council of San Beda College Alabang. It brings together, as a team, the administrators, faculty and staff, the parents and students.

TEAMWORK best characterizes the relationship between the high school community and the HISFACO Board. It is the best means of forming a truly Christian Community. HISFACO supports the school's activities and projects that enhance the academic programs of San Beda College Alabang. It shares in the school's aims of cultivating a high standard of education and level of faculty competence to produce well rounded students.

In support of these laudable objectives, HISFACO seeks the cooperation and participation of parents in the task of developing our children into responsible adults Christian in orientation, Catholic in principle and Benedictine in spirit.

#### **Vision of HISFACO**

To serve as an effective link in fostering good relationship, communication and understanding among the parents, teachers and administrators of San Beda College Alabang (High School) with the end in view of maintaining a high standard of education, high level of faculty competence and well disciplined and well rounded students.

#### **HISFACO MISSION**

To adopt and implement programs, projects and undertakings that would redound to the benefit and interest of the students, teachers and administrators of San Beda College Alabang (High School), and the community where it belongs.

### **HISFACO Projects**

Family Day....brought together the parents, students, teachers and administrators in one day of fun-filled educational, social, and sports activities, highlighted by games and raffling of prizes

HISFACO Web Page....to network with the parents and guardians who have concerns and positive inputs for the Benedictine community through computers without physically coming to SBC.

Teacher Excellence Award....to recognize the critical contributions of teachers in shaping and developing the potentials of students while encouraging teachers to continuously improve their knowledge and pedagogic skills to sustain our leadership in producing competent high school graduates
